

SMuG Future Work Items

- Distributed Designs in SMuG Framework
 - Same framework, but right-side of diagram
- L3-Receiver Access Control (ie. IGMP)
 - Needed by multicast routing protocols
- Anycast Security:
 - Needed by IPv6 community
- Multicast routing protocols security:
 - PIM-SM/SSM control packet authentication
 - Key management for multicast routing
- RM-protocols security:
 - NAK-based RM protocols security

cont

- Other re-keying methods:
 - Traitor-tracing (nb. Illegal re-distribution)
- MAPEX

Drivers Wanted
